1. Upgrade with Miles (Most Popular & Easiest)

If you have SkyMiles, this is the most flexible method.

How it works

After booking your ticket:

1. Go to **My Trips** on Delta's website.
2. Look for “**Upgrade with Miles**” under your flight details.
3. If Delta One seats are available for upgrade, you'll see the miles required.
4. Confirm the upgrade instantly.

Why travelers love this

Where you *can* get complimentary Delta One upgrades

- **Domestic flights ONLY** where Delta One operates (e.g., JFK–LAX, JFK–SFO, BOS–SEA)

Who is eligible

- **Diamond Medallion** (highest priority)
- **Platinum Medallion**
- **Gold Medallion** (rare, depends on availability)

These upgrades usually clear close to departure if inventory remains.

3. Global & Regional Upgrade Certificates (Guaranteed When Space Exists)

If you're a Medallion elite—especially Platinum or Diamond—this is your strongest upgrade weapon.

Regional Upgrade Certificates (RUCs)

- Good for domestic Delta One routes
- Great for premium transcontinental flights
- Clears instantly when “R” upgrade fare class is available

Global Upgrade Certificates (GUCs)

- Valid on **international Delta One flights**
- Can upgrade from almost any paid Main Cabin fare
- Clears confirmed at booking if inventory exists

These certificates are part of the **Choice Benefits** program.

4. Post-Purchase Cash Upgrade Offers

Delta frequently sends targeted upgrade offers:

- Via email
- By SMS alerts
- Inside **My Trips** or the Delta app

These cash offers are sometimes shockingly affordable—especially:

- 48–72 hours before departure

- When Delta One has unused seats

Real traveler insight:

Upgrades are cheapest when demand is low.

Mid-week flights often have better offers than weekend departures.

5. Upgrade at the Airport (Last-Minute)

If seats remain unsold, Delta sometimes offers same-day upgrades:

- At check-in kiosks
- At the gate
- Via the Delta app

These are usually the **lowest priced cash upgrades** you'll find.

Good for:

Travelers who are flexible and willing to wait until the last moment.

6. Rebook into an Upgradable Fare Class

Some discounted fares cannot be upgraded with miles or certificates.

Fares that allow upgrades

- Main Cabin
- Comfort+
- Premium Select (on international routes)

Fares that usually don't

- Basic Economy (E fare)

If your fare isn't eligible, Delta allows you to reprice or reissue the ticket into an upgrade-eligible fare.

7. Using the Delta App: Step-by-Step

Here's a simple, human-friendly walkthrough:

1. Open **Delta App** → **Trips**
2. Select your upcoming flight
3. Tap **Upgrade Options**
4. Choose:
 - Upgrade with Miles
 - Upgrade with Money
 - Apply Certificates
5. Review price and confirm

The app updates dynamically, so check often—availability changes minute by minute.

Pro Tips to Increase Your Odds of Getting a Delta One Upgrade

✓ Book flights with historically low premium demand

Mid-week flights are easier to upgrade than weekend departures.

✓ Check upgrade inventory codes

Delta uses the “R” fare class for upgrades.
If $R > 0$, upgrades are likely.

✓ Fly from alternate airports

Example: BOS–LHR often has more availability than JFK–LHR.

✓ Avoid peak travel seasons

Holiday travel makes upgrades harder.

✓ Join SkyMiles if you haven't already

Status improves your position on the upgrade list.
